

# BRYAN GOLDBERG

Endorsed by Janet Testerman

As a lifelong Republican and former Knoxville City Council member, I know the importance of working together to affect positive change. As the daughter of a two-term Knoxville Mayor, I also watched the impact one person had, through ability and action, in successfully building a coalition of support across the political spectrum to achieve game-changing progress for our entire city.

**That's the leader I've strived to be, the kind of leader I look for when voting for my next representative, and the kind of leader I wholeheartedly believe Bryan Goldberg will be in the State House.**

In today's intense political polarization, Bryan has demonstrated a remarkable ability to bring people together, as evidenced by his issues-based campaign and vast bipartisan support across West and South Knox County, who clearly desire change. His commitment to bridge-building within our community, is not only commendable, but essential in these times of division.

We are desperate for leadership that sets aside personal agendas to prioritize the needs of all constituents through thoughtful decision-making, proven business acumen, a willingness to work with local governing bodies and ability to create pathways for collaboration and mutual respect. Sadly, these attributes are not consistent with our current District 18 representative, substantiated this past year when she led the charge that outlawed Knoxville's current electoral system, overriding the city's voter-approved Home Rule Charter despite strong local opposition.

For these reasons and more, I urge you to join me in supporting Bryan Goldberg because I believe his commitment will inspire others to join in the important work of unity and understanding. It is my hope others like you see the value in his vision and support his candidacy, recognizing that together, we can achieve the future we collectively envision for our community and our state.

A handwritten signature in cursive script, appearing to read 'Janet Testerman'.
